20	Tom Butt	M21	74.1	4	40	Adrian Dawson	M60	32.2	17

The results are culled from 42 events at which there was a significant Sarum presence. 56 events had been recorded by this time in the previous season's galoppen. This decline is mostly due to so many weather-related cancellations early in the year. Another factor may be the emergence of regular score events (eg. The Wessex Series) which do not as yet feature in the club galoppen as they are based on points rather than times and age class. I may need to moderate for these in the future.

Forty Sarum members who have run in at least 4 of the events are included in the final table and 88 members have had at least one run in the 2017/2018 season!

Joan Hambleton
