The results were culled from 46 events (34 commitments if you count a multi-day as a single commitment or when 2 local events take place on the same day). The well- attended army events are not included as they don't cater for those in fulltime employment or fulltime education! Similarly there are also numerous maprun events since Covid but I'm not sure they are mainstream or here to stay yet.

87 members recorded a run, however only those who managed at least 5 are included here. Don't forget that for every 6 runs you can drop a rubbish score (such as 0 for mispunch or retirement). For the majority of events your time is compared to the best performance in your age class with some extrapolation between courses. For very small events I may have to be a bit more creative eg. compare with the leader of the course entered! Finally please remember this is just for fun and not to qualify you for the Olympics.
